

Application Process

Executive Engineer Dual Master's Degree Program

The University of Iowa
Henry B. Tippie School of Management
Iowa City, Iowa

Iowa State University
College of Engineering
Ames, Iowa

Because admission to the Executive Engineer Dual Master's Degree Program is highly competitive, enrollment is limited. To be considered, individuals must have a baccalaureate degree in engineering from an accredited institution and substantial professional experience.

Application Procedure

We encourage individuals to apply as soon as possible. To complete your application file, please provide the following items.

Application Form

The application form in the pocket of this folder must be submitted. Please give careful attention to the required supporting material.

Letter of Sponsorship

Your company must provide a statement, signed by an appropriate authorizing agent, affirming its willingness to participate in the program. An example of this sponsorship letter may be found in the pocket of this folder.

College Transcripts

An official transcript must be submitted directly to the director of the Executive Engineer Dual Master's Degree Program by each college or university previously attended.

Graduate Management Admission Test Scores

All applicants must complete the Graduate Management Admission Test (GMAT). Individuals who have not yet taken the GMAT should take the examination no later than two months prior to the start of the program. Those who have taken the GMAT in the last five years need not retake it. In either case, scores should be sent to the Henry B. Tippie School of Management at the University of Iowa. For information on test dates and location of testing sites, please call 1-800-GMAT-NOW (1-800-462-8669). The GMAT is conducted via computer at more than 600 domestic and international testing locations listed on the MBA Explorer Web site at www.mba.com and in the GMAT bulletin.

Fee Information

Guaranteed for a participant's two years in the program, the all-inclusive fee covers tuition, books, supplies, computer software, parking, group luncheons, and room and board during the two on-campus residency weeks and the international trip. Students are required to pay for transportation to class and airfare for the ten-day international seminar. For current fee information, consult the insert in the pocket of this folder.
